

Manufacturing quality transmission products

CNC LATHE SETTER OPERATOR

Setting and operating brand new CNC Lathe, you would need to have some programming skills although most programs would be produced for the machine by CAD/CAM.

The machine is fitted with a meter bar feeder however the work is varied with production runs seldom exceeding 400 parts with the average runs between 50 and 100 parts.

We have a good order-book and have plenty of overtime available, if you like being busy this could be the change you are looking for

Your basic working hours will be Monday - Thursday 8.00 am to 4.45 pm and Friday 8.00 am to 1.00 pm. In return we offer a competitive salary with five weeks paid holiday per annum.

Applications in writing with curriculum vitae for the attention of Mr. Colin Archer.
